

4th Canadian
SCRABBLE
Championship

This full-colour version requires full (CMYK) printing. We'll use it wherever cost permits.

4th Canadian
SCRABBLE
Championship

This version can be reproduced as a duotone, using black and red inks. It looks nicer than the next one, but probably not enough to justify the added effort and expense.

4th Canadian
SCRABBLE
Championship

This version can be reproduced using just halftoned red ink, and should be affordable and attractive on T-shirts and tote bags.

4th Canadian
SCRABBLE
Championship

This version can be reproduced using just solid red ink. It's ugly, does not retain the original sense of a Scrabble board in the background, and should be used only in a black-and-white context, e.g. when faxing or imprinting on pads.
